Kemiko® Water Base Polyurethane Topcoat Clear is a water base, two component polyurethane. This interior/exterior coating is non-yellowing and offers excellent adhesion and resistance to chemicals, abrasion, hot tires and UV light. The fast curing, low odor, low VOC formula may be used as a decorative or industrial topcoat in warehouses, showrooms, garages, airport facilities or any location that requires a resilient, protective, high performance coating. For ease of application, Kemiko Water Base Polyurethane Topcoat applies milky and dries clear. Available finishes: high gloss and flat.
